This includes, but is not limited to, names, addresses, telephone numbers (to include business address and telephone numbers), of individual end-users of the wireless services. TRUSTWORTHINESS AND SECURITY

TRUSTWORTHINESS SECURITY - NAVY CONTRACT/TASK ORDERS

Purpose: Reference is hereby made to Navy awarded contracts requiring contractor access to Navy information systems, sensitive unclassified information or areas critical to the operations of the command. Although these contracts are not classified and therefore contractor employees are not required to have obtained a National Agency Check (NAC) trustworthiness determination, the Department of the Navy (DON) has determined that all DON information systems are sensitive regardless of whether the information is classified or unclassified. Contractors whose work involves access to sensitive unclassified information warrants a judgement of an employee's trustworthiness. Therefore, all personnel accessing DON computer systems must undergo a National Agency Check to verify their trustworthiness. Also, Commands will include Facility Access Determination (FAD) program requirements in the contract specifications when trustworthiness determinations will be required on the contractor employees. The following addresses those requirements for Trustworthiness Security:

- Each contractor employee will have a favorably completed National Agency Check (NAC).
- If contractor personnel currently have a favorably adjudicated NAC the contractor will notify the Security Manager of the command they will visit utilizing OPNAV 5521/27 Visit

Request form. The visit request will be renewed annually or for the duration of the contract if less than one year.

• If no previous investigation exists the contractor personnel will complete the requirement for a Trustworthiness NAC.

In accordance with NAVSUPINST 5239.1A, if the contractor employee is a Foreign National prior approval of the Network Security Officer (NSO) is required. Access may be granted to Foreign Nationals who have a need to know and at least one of the following applies:

- (a) Foreign National is employed by DOD, or
- (b) Foreign National possesses a current Functional Accreditation approved by the Navy International Program Office (NAVIPO), or
- (c) Foreign National possesses a current Visit Request Form (OPNAV 5521/27 (1-73) as defined in OPNAVINST 5510.1H), which is on file with the requesting activity.

The Trustworthiness NAC is processed through the command Security Manager. The NAC will be processed through the use of the Electronic Personnel Security Questionnaire (EPSQ) SF 85P. The EPSQ software can be downloaded at the Defense Security Service (DSS) website http://www.dss.mil/epsq/index.htm. The contractor should provide the completed EPSQ electronically (electronic mail/diskette) to the Command Security Manager along with the original signed release statements and two applicant fingerprint cards (FD 258). The responsibility for providing the fingerprint cards rests with the contractor. The Security Manager will review the form for completeness, accuracy and suitability issues. The completed SF 85P along with attachments will be forwarded to (DSS) who will conduct the NAC.

The Department of the Navy Central Adjudication Facility will provide the completed investigation to the requesting command security manager for the trustworthiness determination. The command will provide written notification to the contractor advising whether or not the contractor employee will be admitted to command areas or be provided access to unclassified but sensitive business information.

Trustworthiness determinations are the sole prerogative of the commanding officer of the sponsor activity. If the commanding officer determines, upon review of the investigation, that allowing a person to perform certain duties or access to certain areas, would pose an unacceptable risk, that decision is final. No due process procedures are required.

The contractor employee shall take all lawful steps available to ensure that information provided or generated pursuant to this arrangement is protected from further disclosure unless the agency provides written consent to such disclosure.

ACCESS TO PRICING INFORMATION

THIRD PARTY CONTRACTOR ACCESS TO PRICING INFORMATION: In accordance with solicitation instructions and notations on Government web pages, the Contractor understands and agrees that information it considers "proprietary" or "trade secret" shall be properly safeguarded by Government personnel. Such information may nevertheless be accessed by third-party contractor personnel with appropriate organizational conflict of interest clauses and non-disclosure agreements in their respective support contracts. Access to these contractor employees shall be

permitted WITHOUT FURTHER NOTICE OR AGREEMENT for market surveys, studies, contract closeout, and for limited purposes in the course and scope of providing contractor advisory and assistance services to the Government. Government otherwise acknowledges that the information (to include unit pricing) will not be released under the Freedom of Information Act (FOIA) without first providing requisite notice to the Contractor and a meaningful opportunity to challenge any release under that Statute.

BUY AMERICAN/TAA

The Federal Acquisition Regulations, Subpart 25.103(e) states the following: "The restriction on purchasing foreign end products does not apply to the acquisition of information technology that is a commercial product, when using fiscal year 2004 or subsequent fiscal year funds (section 535(a) of Division F, Title V, Consolidated Appropriations Act, 2004, and similar sections in subsequent appropriations acts)."

FAR Subpart 2.101 defines "information technology" as follows: "any equipment, or interconnected system(s) or subsystem(s) of equipment, that is used in the automatic acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information by the agency." Cellular devices (like smart phones and tablets) can be classified as information technology and therefore are exempt from the Buy American Act.
